

PYTHON DEVELOPER

DO YOU LIKE TO BE PART OF A VIBRANT SCALEUP COMPANY? ARE YOU PASSIONATE ABOUT SOFTWARE DEVELOPMENT AND ENGINEERING? THEN PARAPY IS LOOKING FOR YOU!

ParaPy is looking for a talented Python developer, who is passionate about software development, at home in object-oriented programming and wants to become a true Python hero. As Python developer you are responsible for the development of ParaPy's programming libraries incl. geometric modeling, algorithms and mathematics and for the ParaPy programming language.

At ParaPy our mission is to bring the next level of automation to engineering design. With our inhouse developed software platform ParaPy, engineers can develop custom applications that accelerate their work 100x allowing them to focus on awesome new designs. Among the customers that already use ParaPy are Fokker Aerostructures, Aker Solutions and Royal HaskoningDHV. And since we are rapidly growing, we need you to help us realize our mission!

About you

- Bachelor or Master of Science in Computer Science or equivalent
- 2+ years of professional programming experience
- Proven experience in Python is a must; experience with Java or C# is a nice-to-have
- Familiar with Object-Oriented Programming and client-server architectures
- You value quality, like to take responsibility and are eager to learn

What's in it for you?

- A good salary and the opportunity to grow with the company
- Work in a highly talented team and in an open learning environment
- Energizing atmosphere in the inspiring tech incubator of Yes!Delft
- Biweekly demo's and presentations followed by Friday afternoon drinks

ParaPy is specialized in the automation of engineering design processes through smart applications based on our software platform ParaPy. Our ParaPy platform is Python-based and allows engineers to capture engineering logic in a high-level language. The ParaPy platform includes dedicated libraries to speed up application development such as automated geometry modelling, mesh generation and integration with third party CAE software.
